

# How to Create an NFC Tap Tool for Athletic Directors

## What You'll Need:

- Blank NFC tags or cards <https://linktr.ee/CridersGadgets>
  - Smartphone with NFC capability
  - Free app:
    - Android: NFC Tools
    - iPhone: [NFC Tools for iOS](#)
- 

## Step-by-Step Instructions:

### 1. Decide What You Want to Share

- Your Linktree or personal website
  - A Google Form (e.g., injury reports, signups)
  - A MaxPreps or Hudl link
  - An emergency contact card for events
  - A schedule PDF hosted in Google Drive
- 

### 2. Install NFC Tools

Download **NFC Tools** from your app store. Open the app.

---

### 3. Write Your Link to the NFC Tag

### 4. Test It

- Lock your phone and tap the tag.
  - It should instantly open the link you saved—no app needed.
- 

## Pro Tips for ADs:

- Place tags on:
    - Your ID badge
    - Clipboard or lanyard
    - Office door or ticket booth
    - Signage at events
  - Label it: “ Tap here for schedule” or “Scan for emergency contact info”
- 

## Optional: Lock the Tag

To prevent editing, you can **lock the tag** after writing. Be careful—it's permanent.
